

About Us

In the past, customers were queuing outside restaurants as the demand was so high and the supply was relatively reasonable, but now and as a result of this violently competitive market and the economic crisis, the demand is getting lower and lower while the number of restaurants is sky-rocketing. We realize that the purchasing decision is becoming harder and harder and as a result we have created “DoBites” Platform. DoBites is a loyalty platform, on which you can subscribe to your favorite restaurants and you will be able to track promotions, offers and discounts especially tailored for you. The F&B market scene has evolved and with DoBites, you’re the star of the show. Eat more, pay less and be always treated as a well-known guest at your favorite restaurants.

What will you get with us?
